This grid displays all Error Summary Reports, Detail Reports and Informational Reports that are available for your review and/or correction. Click on the appropriate "View" to access the desired report. The Summary and Detail Reports may be printed.

In the "Edit Program" column, the letter in parentheses after the edit program title is the flag used to identify errors specific to that edit program. For example, (K) denotes that a K-flag is used to identify Re-Admission errors in your data.

To make corrections to records, click on "Correct" associated with the desired edit program. This takes you to the "Listing of Records with Errors" for that edit program.

- Refer to the Edit Program Description Guide for more information on the Trend Edit Program and the edit flag descriptions. Click on "Need Help?/Resources" on the Main Menu for this.
- **N/A: Trend Not Applied**. Trend Edit was not applied to the Historical data because there was no data submitted for that Report Period, or the data has a Non-Compliance or Modification.
- **Allowable Difference:** The amount of increase or decrease that Trend Edit Program uses to determine if data passes the Trend Edits. If the difference between the current data and the historical data is outside the **"Allowable Difference"**, then a T or TW flag is applied.

Please review your data to determine if corrections are necessary. If the current data is correct as submitted, please contact your OSHPD Analyst. The following tools are available to assist you in reviewing trend edits:

- **Data Distribution Report:** This is a 3-page summary that provides a numerical and percentage breakdown of data within each data element. Refer to the Edit Program Description Guide for more information. To access this report: from the Main Menu, click on "View Error Reports", then under Informational Reports, click on "View" next to "Data Distribution Report". You can print and/or save this PDF report.

- **Custom Report by Selected Data Element:** When reviewing the Trend Summary, it may be necessary to review specific records associated with the Trend Edit Flag (e.g., records reported as TOA-Unscheduled, sorted by Abstract Record Number). If your facility does not have the capability to generate this type of report internally, please contact your OSHPD analyst and request a "custom report". This report is posted to MIRCal and is only accessible by the requesting facility. To access this report: from the Main Menu, click on "View Error Reports", then click on "View" next to "Custom Report". You can print and/or save this PDF report.

COMPARATIVE EDITS

Data Element	Percentage of Records Reported**	Allowable Percentage	C - Flag
PAYMENT SOURCE: Type of Coverage 1/Plan Code	100.00%	N/A	**C019**

Comparative Edits are not applied to records containing Blank or Invalid data. To calculate the percentages for Comparative Edits, the "Total Records" are adjusted to exclude these records. As a result, the percentages for some of the data element categories on the Comparative Edit Summary will be higher than the percentages displayed on the Data Distribution Report. Once corrections are made to the Invalid and Blank data, the percentages on both reports will match.

N/A: Allowable Percentage does not apply to this Comparative Edit

** Based on total records submitted

Please review your data to determine if corrections are necessary. To assist you in this review, please refer to the Data Distribution Report (click on "View Error Reports"). If it is determined that the current data is correct as submitted, please contact your OSHPD Analyst.
